LOCAL INTELLIGENCE.

MISING REVIEW.-To-day will be gathered the data upon which to base our regular weekly mining review, and it is of interest alike to the public and to owners of stock in the mines of the district to know how they are progressing. Although a mine may be producing no ore, and there may be no immediate prospect of its producing paying ore, stockholders who are paying assessments like to hear what is being done, that work is going on and that the money they are furnishing is being judiciously and economically expended. This being the case, it is well for those in charge of mines where work is being done, to be ready to report from time to time. Stockholders are generally well satisfied to pay their proportion of the money required for carrying out a mining enterprise, so long as they know that their money is being properly applied and they hear that the work is being diligently prosecuted, for then they know that if nothing is found it is the fault of the ground, and that there is nothing to be found at the particular point where they are pushing their explorations; but when for a long time they hear nothing of what is being done in their mine, and still are asked to pay assessments, they are very likely to conclude that the mency furnished is being squandered, and they soon grow tired of the enterprise and refuse to continue in it. As a rule, there is a little if any squandering of money raised for the purpose of opening the mines in the district. All have work is going on and that the money of money raised for the purpose of open-ing the mines in the district. All have so deep a personal interest in the devel-opment of the mines here that the greatopment of the mines here that the greatest economy and energy are exercised in the working of them. Although it is practicable for the reporter to visit every mine in the district, it is an easy matter for the Superintendents to furnish the required d ta, and if parties at a distance feel incredulous in regard to the reports furnished us they have only to get some friend whom they can trust to visit the mines and report. All our reports from reliable sources, and the surroundings will make good any statement furnished res.

WINTER-SPRING .-- Within the memory of the oldest inhabitant of this portion of the Sagebrush State no Winter has been experienced of such severity as that which we have the temerity to hope has passed and gone. Since the early days of December we have had a succession of snow storms, with only brief intervals of fair weather. But it does seem now as if the worst was over. From the first days of December till the first of March we have had but little weather that was even passable; but the juvenile population had a jolly time consting, and those of maturer years made the best of it. The severity of the season has not resulted in any disaster, so far as we are able to learn; stock generally have been able to weather the storm, and as a natural result of the heavy snow of the past we look forward to an abundance of grass and good crops generally. Our edition of the "Beautiful Snow" is exhausted, but as it seems not to be in demand just of December we have had a succession of

termediate school, Mrs. Watt, teacher, termediate school, Mrs. Watt, teacher, the primary school, Mrs. Wilmarth, teacher, and a private school, taught by Mrs. Dakin. Altogether there are about 125 pupils attending these schools, of which ten or twelve are taught privately. Personal observation enable us to speak in commendatory terms of all. Whatever may be said to the disparagement of our town, the people take just pride in the education of the youth.

DANCING ASSEMBLYS.-L. Bach takes pleasure in announcing to the ladies and | jack.' gentlemen that he has engaged Hanley's Hall for the purpose of ladies' and gen-tlemen's practicing class, also for the purpose of teaching all the plain and fancy quadrilles on Monday and Thurs-

not been marked by an unusual number of deaths. Owing to better housing than people had two years ago, pneumonia, which has been very severe in former years, has hardly been known.

OFFICIAL BOND .- The officers who have been required to give new or additional bonds have found no difficulty in doing so; but they must next be approved

The following remarks of the Eureke Sentinel apply to Pioche: Many of the ladies who attend the balls given in this town complain that they cannot wear fine or cosily dresses on such occasions, as the gentlemen do not wear gloves; consequetly dresses of silk and other fine textures which are easily soiled are dispense with by the fair sex. Gentlemen who intend going to a ball should provide themselves with "kils" if they wish to keep in the good graces of their lady friends. "A hint to the wise"—don't it?

PIOCHE SCHOOLS.—There are four schools in this place—the Grammar school, E. Schoppman, teacher; the Intermediate school, Mis. Watt, teacher, they felt as if they belonged to somebody at the place and the four. In fact, his legs were like the legs of some character in Dicken's works—they felt as if they belonged to somebody at the fair sex, teacher, they felt as if they belonged to somebody at the fair sex, teacher, they felt as if they belonged to somebody at the fair sex, they felt as if they belonged to somebody at the fair sex is they belonged to somebody at the fair sex is they belonged to somebody at the fair sex is they belonged to somebody at the fair sex is they felt as if they belonged to somebody at the fair they are the fair that he is getting drunk. they felt as if they belonged to somebody
else. To his alarm, he found he had
only partial control of them. At this
point he told the clerks that he would
close the store; accordingly they all went
home. Then his troubles began. First
he tried to put out the gas by turning
the whole gas fixture as if it were something which operated a drawbridge; then
he tried to get out of the window; and on
his way home he saw more trees, fences,
houses and things, than he had ever
seen before. Moral: Never drink "appleiack."

ABUSE OF WORDS.—To think that these two grammatical weeds, "had ought" and "hadn't ought," should never sur-vive our free school cultivation! And Hall for the purpose of ladies and gentlemen's practicing class, also for the purpose of teaching all the plain and fancy quadrilles on Monday and Thursday evenings from 8 to 10 p. m. Admission, scholars, \$1; non-scholars, \$1.50. Ladies free. Strictly no spectators allowed.

CERMINAL BUSINESS.—The criminal business to come before the District Court during the present term, consists of four or more cases: Rosamurgay, for murder; McCullough and Peaslee, for manslaughter; and Lambert, for grand larceny. The present is a long term, continuing till the first Monday in August. The calendar has not been arranged for the term.

"Soiled Doves."—Several of these unfortunates who fell into the hands of the law the other night for disturbing the peace and making night hideous, were brought before Justice Van Hagen yesterday. The evidence was sufficent to cause two of them to be fined, and in default of payment they were sent to the County Jail. The other one was discharged.

Health.—The health of Pioche continues good. The Winter now closing, which has been one of unusual rigor, has not been marked by an unusual number of deaths. Owing to better housing than poople had two years ago, pneumonia,

How to TREAT BURNS.-The less that simple cuts, bruises and burns are med-dled with, the better. If they are kept clean and excluded from the air, nature will take care of the healing process. The salves and lotions so commonly used tional bonds have found no difficulty in doing so; but they must next be approved by the Commissioners.

Recovering.—Judge Fuller is still improving, though not rapidly. It will perbaps be another week before he is able to hold Court.

PORTLAND.—The stock of this mine is still held firm here, and none of it is parted with unless the holders are compelled to part with it.

The salves and lotions so commonly used are generally irritating rather than beneficial, and hinder rather than hasten the cure. For cuts, a little court-plaster to keep the edges of the skin together; for bruises, wet cloths; for burns, a covering of dry wheaten flour, are usually all the treatment, and the very best that can be used. If, from an unhealthy state of the body or from external irritation, inflammation is produced, something more may be required, the remedy varying with the special case.

FEVER is the most prolific cause of death in India, and, in ordinary years, carries off many more victims than all other diseases together. The returns, exclusive of Bengal and the northwest provinces of Burmah give upward of 900,000 deaths from the fever in 1871, gars, tobseco, stationery and confection-ery at J. PURCHASE Walker House.

HAVING THIS DAY PURCHASED THE Walker House, we are now in possession of the two best hotels in Salt Lake City. Of the Walker House we deem it unnecessary to say anything in its behalf, its splendid design and elegant equipment being so well known to the emblic.

regasti equipment being to well known to the public.

The CLIFT HOUSE, though not so well known as the Walker House—having been open but a few weeks—is first-class in all its appointments, the building being new and the furniture of the most fashionable and elegant style. The location of this house is central and commands a splendid view of the lake and ever anow-clad mountains and surrounding scenery. Its local reputation is superior to that of any other house in the city.

With the above facilities at our command we feel assured in guaranteeing satisfaction to all. Respectfully, city.
